PROFESSIONAL SUMMARY

Full-Stack Developer with a strong Computer Science foundation and hands-on experience building end-to-end applications. Solid understanding of data structures, algorithms, and core system design concepts, with a focus on writing clean, scalable, and maintainable code. Fast learner with a problem-solving mindset, seeking to contribute to impactful software solutions in a Junior Developer role.

TECHNICAL SKILLS

- Programming Languages:** C++, Python, Java
- Web Development:** HTML, CSS, JavaScript, React, Node.js
- Databases:** SQL (MySQL)
- Tools & Technologies:** Git, GitHub, VS Code, Android Studio, Wireshark
- Core Computer Science Concepts:** Data Structures, Analysis of Algorithms, Computer Networks, Databases, Object-Oriented Programming (OOP), Software Development Lifecycle (SDLC), Agile/Scrum

PROJECTS

- Sudoku Solver | C++**
 - Built an optimized Sudoku solver for 9x9, 16x16, and 25x25 grids
 - Implemented backtracking, bit masking, and constraint propagation
 - Focused on performance optimization and clean code structure
- Blackjack Playing Bot | C++**
 - Developed an automated Blackjack player implementing game rules and decision logic
 - Applied probability-based strategies to optimize win rate
 - Emphasized efficient control flow, state management, and modular design
- Therapy Support Chat Application | Java, Android Studio**
 - Built a WhatsApp-style Android application for basic therapy support conversations
 - Implemented user interaction flows, message handling, and activity lifecycle management
 - Prioritized usability, responsiveness, and maintainable object-oriented design
- Snake Game Bot | C++**
 - Implemented an autonomous Snake game bot with path-finding and collision-avoidance logic
 - Managed grid-based movement, game state, and scoring system
 - Strengthened understanding of algorithms, decision-making, and performance constraints

EDUCATION

Bachelor of Science in Computer Science
University of the Witwatersrand, Johannesburg
2023 – 2026 (Expected)

SOFT SKILLS

- Analytical and problem-solving mindset
- Ability to learn new technologies quickly
- Clear written and verbal technical communication
- Strong time management and self-discipline
- Effective collaboration in structured team environments
